"Dalla quarta di copertina This book brings us a new understanding of the psyche that allows us to go on our own inner journey of self-discovery. The authors, with the help of the I Ching, have illuminated this path in ways never described before. Described are functions of the psyche and its place in the personality. Understanding its unique capabilities enables us to free ourselves of conditions such as stress, anxiety, and depression, and remove with Cosmic help, the programmed responses these conditions create in us. The book reveals the I Ching oracle to be a modern psychology that reflects our deepest inner truth. L'autore Carol K. Anthony and Hanna Moog have been students and authors of works on the I Ching since 1970 and 1980 respectively. Since 1998, recognizing that the oracle speaks, have put their questions to it in such a way as to allow the Sage/voice that replies to define the commentaries to the hexagrams and their lines. This novel approach revealed the I Ching to be not just an ancient psychology, but an advanced, modern psychology that is accessible to whoever approaches the I Ching with modesty and sincerity."
