Summary Chapters 1 5 Chapter One titled Everything Is An Argument is simply that The chapter goes to explain how almost every text or statement can be an argument It also goes on to categorize arguments in different ways To summarize the contents this chapter explains the purposes of argument

The editor Mr Gooch who is also an historian and academic has put together a small but interesting argument why Germany and Japan lost the war He admits that additional evidence could be presented and I m at a loss why that evidence wasn t used but his arguments as it stands are credible. For example Solaris 2 5 omits the const from the 2nd argument to connect Lots of systems use int for the length of socket address structures while Posix 1g specifies size t Lots of systems still have the pointer argument to sg etsockopt as a char instead of a void and this also causes warnings.
