At last, you will definitely find a extra knowledge and act by expending additional money.

"Críticas Review of the previous edition: 'This is a big book, physically and intellectually, and must rank among the very best on health care anywhere.' The Lancet' extremely student friendly ? highly readable and well-edited, the textbook covers all aspects of diseases in the tropics ? extremely practical ? an up-to-date masterpiece ?' Journal of the American Medical Association'Unlike most conventional textbooks that take either a systemic or syndromic approach, this book provides a synthesis to address the major health concerns facing Africa's inhabitants ? The book's contributors all write with an African audience in mind: management guidelines are pertinent and in keeping with the realities for physicians who practise in Africa - with material, financial, and workforce constraints ? Principles of Medicine in Africa should not only appeal to physicians practising in Africa but also to anyone who has an interest in the practice of medicine in a challenging, resource-constrained environment.' The Lancet Reseña del editor This volume combines classical clinical medicine with a rich understanding of the major environmental and cultural influences on health and disease in Africa, providing comprehensive guidance for anyone practising, or intending to practise, medicine in Africa. This edition has been thoroughly updated to incorporate new research findings and management guidelines. Descripción del libro This volume combines classical clinical medicine with a rich understanding of the major environmental and cultural influences on health and disease in Africa, providing comprehensive guidance for anyone practising, or intending to practise, medicine in Africa. This edition has been thoroughly updated to incorporate new research findings and management guidelines. Biografía del autor David Mabey is Professor of Communicable Diseases at the London School of Hygiene and Tropical Medicine. He worked for eight years at the Medical Research Council Laboratories in Gambia, where he was in charge of clinical services. Geoffrey Gill is Professor of International Medicine at the Liverpool School of Tropical Medicine. He has worked extensively in Africa (Zambia, Ethiopia and South Africa) and has published widely on chronic disease care in the tropics. Sir Eldryd Parry has unrivalled experience of medicine in Africa, having been Professor of Medicine in Ghana, Ethiopia and Nigeria. He founded the Tropical Health Education Trust (THET) and, in 2011, was knighted for services to healthcare development in Africa. Martin Weber is a paediatrician working for the World Health Organization. He worked as a research clinician at the MRC Laboratories in Gambia for six years and has played a key role in the development and evaluation of treatment guidelines for children. Christopher Whitty is Professor of International Health at the London School of Hygiene and Tropical Medicine. He has worked as a clinician in Malawi and has led clinical research projects in Tanzania, Ghana and Uganda."
