'Ray Kurzweil is the best person I know at predicting the future of artificial intelligence.' Bill Gates In How to Create a Mind, Ray Kurzweil offers a provocative exploration of the most important project in human-machine civilisation: reverse engineering the brain to understand precisely how it works and using that knowledge to create even more intelligent machines. Kurzweil explores how the brain functions, how the mind emerges from the brain, and the implications of vastly increasing the powers of our intelligence in addressing the world's problems. He thoughtfully examines emotional and moral intelligence and the origins of consciousness and envisions the radical - arguably inevitable - future of our merging with the intelligent technology we are creating.

The 2006 documentary the secret inspired many to start thinking in new ways did you hope that you too could manifest your dreams what the secret didn't share is that activating the law of attraction requires more than inherent desire an active imagination and creating a vision board
