"A new book that I found delightfully appealing" - Bruce Pandolfini, [www.chesscafe.com](http://www.chesscafe.com) For all chess-players, from beginners to world champions, from kids to seniors, delivering checkmate is the greatest thrill the game has to offer. The ability to spot checkmates is a vital skill - and this easy-to-use book shows you how it is done. With the help of Grandmaster John Nunn, you will be ready to shock your next opponent with a deadly checkmate, whether in a school match, a club tournament - or even a championship game! By focusing exclusively on positions from real games, ranging from junior events to grandmaster encounters, Nunn ensures that the mates featured are those which arise most often in real life. He also highlights themes and ideas that are often missed in practice. While solving these puzzles, your all-important 'mental library' of patterns will grow, leading to an immediate increase in your playing strength. All 1001 puzzle positions have been carefully checked, and are graded by theme and difficulty. Points are awarded for finding the checkmate, so you can measure your skill. Most of the puzzles are suitable for novice and junior players. The last chapter challenges you with 'extreme

checkmates', but don't worry: you'll be ready for them! The Kindle edition of this book has been specially reorganised for easy use. The solution to each puzzle is always on the page following the puzzle itself, and the puzzle diagram is repeated there, so it is not necessary to flip backwards and forwards when viewing the solution. Dr John Nunn is one of the best-respected figures in world chess, having numbered among the world's leading grandmasters for nearly twenty years. He has won four gold medals in chess Olympiads, and was crowned World Chess Solving Champion in 2004, 2007 and 2010. Nunn's playing style is notoriously aggressive, with sacrifices, king-hunts and checkmates featuring in many of his finest wins. "Recognizing patterns has long been recognized as one of the hallmarks of chess mastery and 1001 Deadly Checkmates offers a series of exercises to train this skill arranged by theme and increasing difficulty. To challenge those of a competitive nature points are awarded for each correct answer with solvers able to track their success." - IM John Donaldson, Gold-Medal Winning USA Team Captain "John Nunn, renowned king-hunter, presents 1001 checkmate puzzles. Players who study this book will learn much about tactical motifs leading to mate... a delightful tome for any lover of chess" - Bab Wilders, Nederlands Dagblad " ...like a feast for me! The long list of chess stars to be found there includes hundreds of players with whom I am either very well acquainted, or at least slightly so, and it's a lot of fun to try to find the same brilliant moves that they actually played at the climax of real battles. Though the book is quite thick and heavy, weighing in at over 300 large pages, its content is so enjoyable and easily readable for me that my feeling when packing it in my summer holiday suitcase is that I'm taking along a light yet precious companion." - GM Paul Motwani, The Scotsman
