It was simply applying the science and psychology of selling. To this day, I obsessively read everything, listen to everything, and watch everything I can about copywriting , and I've noticed patterns. The successful copywriters and advertisers through history have followed pretty much the same rules since the late 1800?s?.and those are what I'm sharing with you today. I don't care what you paid for this book, it was worth it because?. ?..it will change your writing forever!"
