Protagoras of abdera was one of several fifth century greek thinkers including also gias hippias and prodicus collectively known as the older sophists a group of travelingsophists in spanish with example teachers or intellectuals who were experts in rhetoric the science of oratory and related subjects. The sophists from them other minor figures we have excluded because it is

impossible to grasp their contours or even to be fully certain of their historical reality so for example several characters who are known only from plato like callicles in the gias or dionysodorus and his brother euthydemus in the euthydemus and cratylus so too we have omitted some anonymous prose.
