When an out-of-the-blue cancer diagnosis quickly turned into a 90-days-to-live death sentence from his doctor, Rodney Stamps and his wife Paige defied the medical establishment, and drew their line in the sand. With both a growing family and business--and given that their doctors promised only to briefly extend his life with chemotherapy--the Stamps gave a resounding "No" to chemo and radiation. 90 Days to Live recounts the Stamps' incredible and inspirational journey to find an alternative answer to cancer. In the end...They'd beaten cancer while growing their business exponentially. Following his ALL-natural protocol religiously, Rodney's cancer went into full remission. On top of that triumph, he took his fire-and-safety business--which had just begun to take off when he'd received his cancer diagnosis--into a million-dollar enterprise. Alternately heart-wrenching and heartwarming--and delivered in an engaging dual-author format--90 Days to Live will speak to anyone struggling with an "incurable" disease, building a business under trying circumstances, or anyone who just loves a good old-fashioned, "beating-the-odds" story.

**The final days to weeks of life providing excellent care toward the end of life eol requires an ability to anticipate when to focus mainly on palliation of symptoms and quality of life instead of disease treatment certain symptoms such as anorexia or delirium indicate that the patient is approaching the last weeks or months of life another strategy is to follow a patient s functional**
