designed to give you greater control over which areas of the house you'd like secured. If there is a breach the control panel shows you exactly which areas have been disturbed and whether any further areas had been opened after the alarm was activated.

I have a veritas R8 alarm that in the last 3 months has occasionally gone off when not set. The first time it happened I assumed the battery was on its way out and replaced it but it did the same thing last week. I was able to reset it from the keypad which stopped the alarm.
