"L'autore JA - the Japan Architect - was first published in June 1956 and was the only English language periodical that introduced Japanese architecture to an overseas audience. Since 1991 it has been published as a quarterly journal in both Japanese and English, expanding its readership both inside and outside of Japan. Today's JA showcases contemporary Japanese architecture with in-depth commentary on the theoretical history and context of the projects. It is organized with an emphasis on developments originating in Japan. The magazine surveys the country's diverse, ever-changing architectural scene, identifies important trends to convey to a wider audience outside Japan, takes up current, compelling

issues and considers the latest architectural trends."
