"Pressestimmen 'This very instructive text will be of interest to all levels of neurosurgical trainees and practitioners, as well as to any medical specialists who want to understand the clinically important issues regarding the conditions discussed. I can't think of a better contemporary review text to prepare for oral board or re-certification examinations.' --R. Michael Scott, MD, Fellows Family Chair in Pediatric Neurosurgery, Emeritus Neurosurgeon-in-Chief, Boston Children's Hospital; Professor of Neurosurgery, Harvard Medical School, Boston, MA' The authors present the spectrum of pediatric neurosurgery in a unique way, developing each chapter from the perspective of an individual case. Therapeutic options are considered, surgical techniques are described in detail, and postoperative management and complications are discussed. The text is likely to be a valuable resource for residents in their early years of training and for those reviewing for oral board exams.' --Leland Albright, MD, Professor of Neurosurgery, Retd., University of Wisconsin School of Medicine, Madison, WI Über den Autor und weitere Mitwirkende Nathan Selden is Chair of the Department of Neurological Surgery at OHSU and holds the Mario and Edith Campagna Endowed Chair of Pediatric Neurosurgery in the OHSU School of Medicine. He is also Chair-elect of the Professional Board for OHSU Healthcare. His clinical focus is functional neurosurgery for children. At OHSU, he performed the first ever transplantation of neuronal stem cells in a human patient and has three times co-authored the Pediatric Traumatic Brain Injury Guidelines. Lissa Baird is Head of the Division of Pediatric Neurosurgery and Associate Professor of Neurological Surgery in the OHSU School of Medicine. She is the Surgical Director of the Pediatric Brain Tumor Program at Doernbecher Children's Hospital. Her clinical focus is the management of pediatric brain and spine tumors, and neurovascular malformations in children. She co-authored the Pediatric Hydrocephalus Guidelines and

Pediatric Plagiocephaly Guidelines. Her research interests focus on working towards novel treatments and a better understanding of pediatric brain tumors."
