"Pressestimmen 'Its passion, imagination, and sensitivity to all aspects of our world mean that this is a book that can be enjoyed by humanists as much as by those who identify themselves as religious. Scruton's God is embedded in the human world, including our art, architecture, music, and literature to which he is such a fascinating guide, which is the right place for gods to be.'--Simon Blackburn, author of Think and Mirror, Mirror'This is a wonderful and in many places beautiful work; closely argued, though best read not as an argument but as a genuine 'turning for home' on the part of a learned and deeply thoughtful man, who offers us hard-won insights as he fixes his gaze on our final end.'--Mark Johnston, Princeton University'This is a rich and highly sensitive book, which engages the reader on many levels, and which approaches religion not doctrinally, but via the full range of human sensibility, especially moral and aesthetic, and our capacities for seeing the world not just in terms of impersonal scientific structures, but in deeply personal terms. Finely written and argued, the book is philosophically sophisticated yet accessible.'--John Cottingham, Heythrop College London and University of Reading'The interest of his project lies not so much in the conclusions themselves, but rather in the way he attempts to establish them. Most conservatives place great weight on contingent features of the human condition. They emphasize our cognitive limitations, our anti-social impulses and the sheer extent of our ignorance, or they delve into the details of human history in order to establish that the old ways cannot be abandoned so quickly. Scruton's conservatism is more rationalistic.'--David Owens, Times Literary Supplement'[A] stately and often beautiful journey through various areas of human experience. . . . [W]ide-ranging and intellectually impassioned.'--Sarah Bakewell, Financial Times'[I]n no previous work has he woven together so successfully his thoughts on aesthetics, personhood, politics, and religion. . . . [A] book that--for its richness, scope, and beauty--may be remembered as among his best.'--Spencer Case, National Review Online'Reading Scruton is to take delight in his clarity of expression and linguistic economy, and it's to feel as though you're in the hands of a guide who is unafraid of doubts and uncertainties.'--Laura Keynes, Standpoint'[F]ascinating.'--Christopher Hart, Sunday Times'[C]onvincing.'--Jonathan Derbyshire, Prospect'The Soul of the World is a rich and rewarding work, one composed by a scholar clearly possessing exceptional depth and broad learning.'--Jerry Salyer, Catholic World Report Buchrückseite 'Its passion, imagination, and sensitivity to all aspects of our world mean that this is a book that can be enjoyed by humanists as much as by those who identify themselves as religious. Scruton's God is embedded in the human world, including our art, architecture, music, and literature to which he is such a fascinating guide, which is the right place for gods to be.'--Simon Blackburn, author of Think and Mirror, Mirror'This is a wonderful and in many places beautiful work; closely argued, though best read not as an argument but as a genuine 'turning for home' on the part of a learned and deeply thoughtful man, who offers us hard-won insights as he fixes his gaze on our final end.'--Mark Johnston, Princeton University'This is a rich and highly sensitive book, which engages the reader on many levels, and which approaches religion not doctrinally, but via the full range of human sensibility, especially moral and aesthetic, and our capacities for seeing the world not just in terms of impersonal scientific structures, but in deeply personal terms. Finely written and argued, the book is philosophically sophisticated yet accessible.'--John Cottingham, Heythrop College London and University of Reading Über den Autor und weitere Mitwirkende Roger Scruton is a writer and philosopher. He is a senior fellow at the Ethics and Public Policy Center in Washington, DC, and a senior fellow of the Future Symphony Institute. Among his more than forty books is The Aesthetics of Architecture (Princeton)."
