"Pressestimmen 'Standage succeeds in underscoring the crucial role that food continues to play in our lives.' - Washington Post'The emphasis on food as a cultural catalyst differentiates Standage from Michael Pollan. With Standage...it's not just one food lifting and guiding history, but what Adam Smith might have called the 'invisible fork' of food economics.' - New Scientist'Standage's examples are pretty powerful: In his view of the world, the British lost the Revolutionary War in large part because they failed to provide adequate food for their troops; the Soviet Union collapsed in 1991 because the regime could not feed its people; and the reason we say someone is a family's 'breadwinner' is because of food's practically ancient association with wealth.' - Gourmet'An extraordinary and well-told story, a much neglected dimension of history.' - Financial Times'Cogent, informative and insightful. An intense briefing on the making of our world from the vantage point of food history.' - Kirkus Über den Autor und weitere Mitwirkende Tom Standage is business editor at The Economist magazine and the author of four works of history, including *A History of the World in 6 Glasses* and *The Victorian Internet*. He has also written for the Guardian, the New York Times, Wired, and other publications. He is married and has two children."
