"Críticas ?In ancient Japan, politics was closely connected with religion. Based on the analysis of ancient history books, archaeological relics, and old pictures, this book explains that the emperor sponsored religious service at Mt. Miwa and the Omiwa clan, consistently engaging in it from the fifth to the seventh century, strengthened its political power. By analyzing genealogical materials of the clan, this book also elucidates that the clan absorbed the legend of their ancestors for the legitimacy of their political position and reinterpreted

their own history for future generations. These points are important when we consider the forming process of ancient Japanese nation. This book will offer the latest research of religion and clan in ancient Japan to international researchers. ? ?
