"Recensione "Walt Disney's lifelong friend and colleague Ub Iwerks has been the subject of a renowned documentary film as well as a highly-regarded biography. Now, his career as an innovator, inventor, and creative problem-solver has been documented in an entertaining and beautifully-illustrated focus on Walt Disney's Ultimate Inventor: The

Genius of Ub Iwerks. The author of this fascinating work is no less an authority than Ub's son, Don Iwerks, who followed his father to The Walt Disney Studios where Don also developed technology still used in Disney parks around the world. This never-before-told facet of Disney biography and technology is a fascinating addition to the library of any Disney fan."?"Jeff Kurtti, Author and Disney Historian L'autore Don Iwerks followed his father, Disney Legend Ub Iwerks, to The Walt Disney Studios in 1950. There, among many leadership roles and accomplishments, Don developed cameras, projectors, and other technical systems, many of which are still used in Disney parks around the world, among them Circle-Vision 360, wide-gauge 3-D film systems, and the projection system for the wildly popular Star Tours attraction. In 1986, after thirty-five years at Disney, Don joined fellow Disney executive Stan Kinsey to cofound their own company, Iwerks Entertainment, a maker of giant-screen theaters, simulation theaters, and 3-D-projection-based theme park attractions. In 1997, Don received the Gordon E. Sawyer Award, an Oscar from the Academy of Motion Picture Arts and Sciences Board of Governors. In 2009, Don Iwerks joined his father in the pantheon of Disney icons when he was presented with the prestigious Disney Legends Award."
