"Críticas I have read literally hundreds of trading books, but never have I came across a more complete or better organized manual on how to get started trading low priced/penny stocks. In the past most new traders would be forced to try and assemble their own training materials and hope to design some sort of learning curriculum. The Complete Penny Stock Course is exactly what the title implies, an in-depth tour of every facet of trading low priced stocks, combined with a timeline and syllabus style layout. This is great for aspiring traders since it allows you to learn on your own timeline and always moving forward in a structured fashion. ~ Timothy Bohlen, Lead StocksToTrade Pro Trainer Thank God for Jamil's book that organizes all my lessons... I would never endorse anything not truly useful to new and veteran traders alike and this book has it all so it should be required reading for all penny stock traders and it should be particularly enlightening for the far too many people who hate on this niche ~ Timothy Sykes, self-made millionaire trader, mentor & founder of Profit.ly Reseña del editor You can learn trading penny stocks from the masses and become part of the 90% of traders who lose money in the stock market, or you can learn from the Best. The Complete Penny Stock Course is based on Timothy Sykes?, various training programs. His strategies have helped individuals like Tim Grittani, Michael Goode and Stephen Dux become millionaires within a couple of years. This course aims to teach you how to become a consistently profitable trader, by taking Tim's profit-making strategies with penny stocks and presenting them in a well-structured learning format. You'll start by getting acquainted with the concepts of market and trading psychology. Then you'll get into the basics of day trading, how to manage your risk and the tools that will help you become profitable. Along the way, you'll learn strategies and techniques to become consistent in your gains and develop your own trading techniques. What's inside Managing expectations and understanding the market Understanding the psychology of trading and how it affects you Learning the basics of day trading Learning the mechanics of trading penny stocks Risk management and how to take safe positions How to trade through advanced techniques Developing your own profitable trading strategy Real world examples and case studies No prior trading experience is required. Biografía del autor Jamil Ben Alluch holds a bachelor degree in computer engineering from the Univeristy of Quebec in Outaouais and has been certified with the Global Information Assurance Certification since 2002 as a GIAC Certified Incident Handler. Jamil has been involved with trading penny stocks since 2014 when he joined the Timothy Sykes Millionaire Challenge Program. He is now the Chief Technology Officer for StocksToTrade.Com Inc., focusing his work primarily on working with a dedicated team of traders and developers to create efficient trading tools for traders. Experience led Timothy Sykes to create Profit.ly, a community of over 84,000 traders who share their performance and trades openly to help each other learn & improve and Investimonials.com, a community of over 65,000 investors & traders who have reviewed over 25,000 financial products like brokers, blogs, newsletters, websites, financial movies & commentators...kinda like Yelp or TripAdvisor but for finance, which is sorely lacking in transparency. He is now a full-time teacher now, has more than 6000+ students, and wants more of this: Tim had a slightly different

college experience: skipping classes in favor of trading penny stocks every day, he turned \$12,415 in Bar Mitzvah gift money into \$2 million and started a hedge fund during his senior year. He also created a scholarship for talented/passionate people open not only to current Tulane students, but also Tulane faculty and alumni...an economic bailout ahead of its time. His hedge fund went on to become the #1 ranked short bias fund by Barclay for 3 years and he was named to Trader Monthly's 'Top 30 Under 30' in 2006, but his trading strategy was never very scalable (meaning it's much easier to make \$100,000 than it is \$100 million) and his fund lost 35% when he tried long-term investing instead of trading. Infinitely wiser but embarrassed and depressed, a TV producer asked Timothy to make an appearance in his upcoming documentary ""Wall Street Warriors""...He had lost his confidence and credibility so he agreed and ended up starring in 5 of the 6 episodes of the hit first season, which you can watch on Hulu, now having aired in 20+ countries and followed by 2 more seasons (Wall Street Warriors Season 3 was filmed but has not aired). The show's popularity inspired hundreds of daily emails from fans wanting to know more about Timothy Sykes and his trading strategy, but as a hedge fund manager, he was not allowed to answer any of them. So he moved on from the restricted hedge fund industry, wrote openly about his experiences in his best-selling autobiography ""An American Hedge Fund"" and started a publishing company to create brutally honest & educational financial newsletters and instructional DVD packages. I've been featured by every major business and financial media outlet, but he is infinitely prouder of having returned to his \$12,415 Bar Mitzvah gift money roots, intent on repeating his feat of turning that into \$2 million, this time detailing every step of the way on this website. 8,000 blog posts and several years into this challenge, his brokerage account surged to \$211,420, a gain of more than 1,500%, already providing you with a rough blueprint of how to turn \$12k into \$100k in 2 years and making Tim the #1 ranked trader out of 60,000+ traders on Covestor, a website which verifies trades and performance...and nearly 1/5 of the top traders are subscribers of his 4 newsletters and PennyStocking DVD students! Tim has also enjoyed his money, traveling to over 80 countries and meeting and chatting with many of the world's most interesting and successful people... Timothy Sykes now has 3,000+ students in over 70 countries."
