Welcome to Toby Hart's world. This is the first installment of someone who on the face of it has everything, but the reality is somewhat different. Toby is a handsome chap who has never had problems forming relationships with beautiful women, but his desires are dominated by his foot fetishism, coupled with his need to be controlled by a loving partner. The world sees a confident young man, seemingly with the world at his feet, when all he desires is to lay at the feet of his dream woman – wherever she may be. This first novella-read of over ten thousand words details his early days and the events that unleashed his secret desires. At times humorous, at times sad, so please enjoy as you follow Toby's journey and the events that will lead to him meeting the woman of his dreams. See the world through his eyes as he surreptitiously gazes at various women's feet. The world of shoe dipping, toe cleavage, slowly wriggling toes encased in stockings and glorious high foot arches. This is just the beginning of his journey, and the preamble to further similar bite-sized reads where Toby will find himself submitting at the feet of a truly dominant woman. Where love will develop and blossom. This is a light hearted foot fetish story. If you prefer more extreme reads then please check out my other efforts.©

Wow your foot massage was so relaxing i fell asleep she complemented grey as she removed her feet from his lap that was a great massage you really know how to treat a girl she smiled it was my pleasure grey told her blushing a bit i would love for you to massage my feet again sometime cynthia told grey with a loving look

A little background information i was 5 years old at the time and the year was 1964 i knew about my foot fetish and always looked for an opportunity to be near adult females feet near them or under them mom in her late twenties very slim body about 5'6" and 115lbs she has used me for a rug while she wore her 3 to 5 spike high heels when she was disciplining me and then from time to time.

I have had a foot fetish since my childhood and it stayed with me up until now into my 30s i don't feel it's my fault as in a past incident i was made to smell and lick a girl's bare feet but at that time i didn't like it at all and if that's not the twisted cause of the foot fetish i've read it could have developed during puberty and i remember being turned on by bare feet through my teens
