The volkswagen type 4 is a pact car manufactured and marketed by volkswagen of germany from 1968 to 1974 in two door and four door sedan as well as two door station wagon body styles the type 4

This redesigned 411 was introduced in the us in 1971 still the cars would not move out of dealer showrooms another attempt at saving the type 4 was made in 1972 it received a major facelift and a new name vw 412.

The type 4 evolved through two generations the 411 1968 72 and 412 series 1972 74 designed under the direction of heinrich nordhoff and introduced at the paris motor show in october 1968 2 the 411 was volkswagen s largest passenger vehicle with the pany s largest engine with styling credited to carozzeria pininfarina who at the time had an advisory contract with volkswagen 3.

This is a type 4 volkswagen and the 412 is actually somewhat hard to find in two door wagon form in the spirit of nightmare should have gotten one themes a really nice version sold at barrett jackson

for 5 500 in 2012

The vw 411 e variant provided even more space for luggage and this estate version was soon selling twice as well as the hatchback saloon type 4 exports to the úsa began in 1971 and the car sold better than expected there soon accounting for roughly 40 of total sales a further new and improved model called the vw 412 followed in 1972. The type 4 evolved through two generations the 411 1968 72 and 412 series 1972 74 designed under the direction of heinrich nordhoff and introduced at the paris motor show in october 1968 2 the 411 was volkswagen s largest passenger vehicle with the pany s largest engine with styling credited to carozzeria pininfarina who at the time had an advisory contract with volkswagen 3. The volkswagen type 4 is a pact car manufactured and marketed by volkswagen of germany from 1968 to 1974 in two door and four door sedan as well as two door station wagon body styles the type 4 evolved through two generations the 411 1968 72 and 412 series 1972 74 designed under the direction of heinrich nordhoff and introduced at the paris motor show in october 1968 the 411. Decoding engine codes this table shows all engines available on the volkswagen type 4 411 and 412 during its production run letter designates the code letter stamped onto the crancase dates pertains to the dates between which the engine was built while count specifies the last engine number used in that time frame.

Vw type 4 aka t4 tiv models 411 amp 412 volkswagen type 4s were first produced in germany around 1968

and were only imported to the us between 1971 and 1974 type 4s were an attempt to diversify the vw vehicle lineup but they didn t sell that well and ceased production after only 400 000 were

manufactured the type 4 was the last mass

Do you remember the type 4 volkswagen the type 4 also known as the 411 and 412 series is noteworthy to rear engine auto enthusiasts because it was the last attempt in the world to develop a totally new passenger car based on dr porsche s air cooled rear engine concept volkswagen type 4s were first produced back in the fatherland around 1968. The first generation of volkswagen type 4 is known as the 411 introduced in 1968 the 411 shared its flat four engine with the porsche 914 the 411 was available in two or four door configurations and was replaced in 1972 by the 412 type 4. Volkswagen s idea of a large luxury car the vw 411 is generally considered to be the last car designed to be a rear engined sedan short lived though and was outlasted by volkswagen s own beetle and small sedans like the simca 1000 and the zaporozhets from the ukraine also i believe the fiat 126 was produced in poland well into the 1990s by the time the type 4 was introduced.
