This book opens with a simple introduction to financial markets, attempting to understand the action and the players of Wall Street by comparing them to the action and the players of main street. Firstly, it explores the definition of a security by its function, the departure from the buyer beware environment of corporate law and the entrance into the seller disclose environment of securities law. Secondly, it shows that the cost of disclosure rules is justified by their capacity to combat irrationalities, fads, and panics. The third section explains how the structure of class actions is designed to improve deterrence. Next it explores the economic harm from insider trading and how the law fights it. In sum, the book shows how all these parts of securities law serve the virtuous cycle from liquidity to accurate prices and more trading and how the great recession showed that our securities regulation reacted mostly adequately to the crisis.

In the logic of securities law professor geakopoulos acts to restore some of the lost coherence tying together different strands of securities law around a simple yet powerful theoretical focal point a virtuous circle in which liquid markets accurate securities prices and low trading costs reinforce each other

Philosophy of law is a branch of philosophy that examines the nature of law and law's relationship to other systems of norms especially ethics and political philosophy it asks questions like what is law what are the criteria for legal validity and what is the relationship between law and morality philosophy of law and jurisprudence are often used interchangeably though. Host June Grasso speaks with prominent attorneys and legal scholars analyzing major legal issues and cases in the news the show examines all aspects of the legal profession from intellectual property to criminal law from bankruptcy to securities law drawing on the deep research tools of Bloomberg Law. In Roman law countries where the law is made up of codes supplemented and explained by the codified Roman law of Justinian and modern usage on the basis thereof which stands as the mon law it seems clear enough that analogical application whether of a section of the code or of a text of the Roman law is essentially the same edition current page 107 process.
