Idées en spirales Friedensreich Hundertwasser, héros des formes fluides et de l'écologie Des couleurs vives, des formes organiques et une abjection absolue pour les lignes droites ne sont que quelques-unes des caractéristiques fondamentales de l'oeuvre de Friedensreich Hundertwasser (1928 2000). Héros anticonformiste, l'artiste, architecte et militant écologiste conçut des immeubles, des tableaux, des manifestes, des actions qui forment un ensemble débordant de créativité et d'idées novatrices. La création la plus célèbre de Hundertwasser est sans doute la Hundertwasserhaus de Vienne, une construction unique qui synthétise la vitalité qui fut celle de tout son oeuvre. Pour Hundertwasser, la misère humaine découlait d'une architecture rationnelle, stérile et monotone. Il appela à un boycott du modèle moderniste défendu par des figures comme Adolf Loos et milita pour une architecture libre, créative et engagée dans l'écologie. Ennemi farouche des lignes droites, qu'il juge «impies et immorales», Hundertwasser se fascina pour la spirale, motif largement exploité avant lui par les sécessionnistes dont Klimt et Schiele. Cet ouvrage richement illustré retrace le style et la vision que Hundertwasser appliqua à ses oeuvres, mais aussi à la société dans son ensemble. De ses discours prononcés nu à la fin des années 1960 à ses créations architecturales du monde entier, en passant par ses projets de société alternative, l'auteur Pierre Restany explore la philosophie concrète, imaginative et avant-gardiste de Hundertwasser dans cette introduction passionnante à l'un des grands esprits pionniers du XXe siècle. «Si vous et votre voisin êtes créatifs, nous n'aurons pas besoin de partir loin. Nous n'aurons pas besoin d'aller loin, parce que le paradis est juste au coin de la rue.» _Friedensreich Hundertwasser
