"Recensione ""A warts-and-all, nail-biting mini-epic about the low-paid, unsung 'funnybook men' who were unwittingly creating twenty-first century pop culture. If you thought the fisticuffs were bare and bloody on the four-color page, wait 'til you hear about what went down in the Marvel bullpen."" --Patton Oswalt Dalla quarta di copertina An unvarnished, unauthorized, behind-the-scenes account of one of the most dominant pop cultural forces in contemporary America Operating out of a tiny office on Madison Avenue in the early 1960s, a struggling company called Marvel Comics presented a cast of brightly costumed characters distinguished by smart banter and compellingly human flaws. Spider-Man, the Fantastic Four, Captain America, the Incredible Hulk, the Avengers, Iron Man, Thor, the X-Men, Daredevil?these superheroes quickly won children's hearts and sparked the imaginations of pop artists, public intellectuals, and campus radicals. Over the course of a half century, Marvel's epic universe would become the most elaborate fictional narrative in history and serve as a modern American mythology for millions of readers. Throughout this decades-long journey to becoming a multibillion-dollar enterprise, Marvel's identity has continually shifted, careening between scrappy underdog and corporate behemoth. As the company has weathered Wall Street machinations, Hollywood failures, and the collapse of the comic book market, its characters have been passed along among generations of editors, artists, and writers?also known as the celebrated Marvel ""Bullpen."" Entrusted to carry on tradition, Marvel's contributors?impoverished child prodigies, hallucinating peaceniks, and mercenary careerists among them?struggled with commercial mandates, a fickle audience, and, over matters of credit and control, one another. For the first time, Marvel Comics reveals the outsized personalities behind the scenes, including Martin

Goodman, the self-made publisher who forayed into comics after a get-rich-quick tip in 1939; Stan Lee, the energetic editor who would shepherd the company through thick and thin for decades; and Jack Kirby, the World War II veteran who'd co-created Captain America in 1940 and, twenty years later, developed with Lee the bulk of the company's marquee characters in a three-year frenzy of creativity that would be the grounds for future legal battles and endless debates. Drawing on more than one hundred original interviews with Marvel insiders then and now, *Marvel Comics* is a story of fertile imaginations, lifelong friendships, action-packed fistfights, reformed criminals, unlikely alliances, and third-act betrayals? a narrative of one of the most extraordinary, beloved, and beleaguered pop cultural entities in America's history. L'autore Sean Howe's writing has appeared in the *Los Angeles Times*, the *New York Observer*, *Spin*, and the *Village Voice*. He is a former editor and critic at *Entertainment Weekly*, and the editor of *Give Our Regards to the Atomsmashers!: Writers on Comics*. He lives in Brooklyn, New York."

Comics the untold story and it looks like Sean Howe was the right guy for the job. Howe's clear-eyed history is as full of colorful characters, tragic reversals, and unlikely plot twists as any book in the Marvel canon newsday.

At first I was a little skeptical about the subtitle of Sean Howe's 2012 book, *Marvel Comics the Untold Story*. I grew up reading *Marvel Comics* and have read other books on the company's history. After finishing Howe's version, however, I'm happy to report that his investigative journalism into Marvel's past is quite impressive and the book makes for a truly fascinating read.
