The evolution of transportation has brought us from simple canoes to space travel and there s no telling where we could go next and how we will get there The following is a brief history of transportation dating from the first vehicles 900 000 years ago to the modern day. **Travel tools You are here Art amp design Art amp design From the Tube map to Art Deco architecture our transport designs have become iconic design classics Station architecture London Underground s**

architecture gives insight into the city's social history. Classic transport designs. Find out about the history of the Tube map and Harry

Because they can go for a long time without food or water, they are strong and can walk easily through sand. They were very useful for transport and travel in the Arabian desert. In the 3rd and 4th centuries, camels spread to the African Sahara. They replaced donkeys, horses, and oxen to transport people and goods through the desert.

HISTORY OF TRANSPORT AND TRAVEL

including The great canal of Darius I, Roman roads, China's Grand Canal, Flash locks and pound locks, Junks and caravels, Inca roads, European canals.

Trains have been a popular form of transport since the 19th century. When the first steam train was built in 1804, people were worried that

the speed would make rail passengers unable to breathe or that they would be shaken unconscious by the vibrations.

The history of rail transport in the Netherlands can be described in six eras: the period up to 1839; the first plans were made for a railroad 1840-1860; railroads experienced their early expansion 1860-1890; the government started ordering the construction of new lines

Hop on board and prepare to blast off on an exciting adventure with this Travel and Transport topic for KS1. Your class will explore journeys of all kinds, including how people get around now and how they travelled in the past. All through a selection of fun, engaging, and informative lessons and activities. TD
