"Pressestimmen From the reviews:?"This book covers techniques, tips, and important considerations in periorbital cosmetic and functional rejuvenation. ? It will be valuable to physicians at all levels of training and experience, from beginning residents to experienced attending surgeons. ? The book will be of particular value to surgeons specializing in periorbital

facial rejuvenation such as oculoplastic surgeons, ophthalmologists, and facial plastic surgeons. ? This is a high quality book written by leading surgeons in their field. ? This is an outstanding addition to any facial surgeon's library.? (Christopher B. Chambers, Doody's Review Service, December, 2011)?This text is a comprehensive book about periorbital aesthetic surgery written in 6 sections for a total of 28 chapters. ? High-quality photographs and illustrations and adequate references add to the informative value of the text. ? The editors have succeeded in putting together an outstanding group of experts and topics and guided the final project to the master level that it had promised. This book ? should be in the library of any practitioner who is interested in periorbital aesthetic surgery.? (Steven Fagien, Ophthalmic Plastic and Reconstructive Surgery, Vol. 28 (3), 2012)?This publication provides the reader with a modern and detailed surgical atlas that highlights a variety of classic and advanced surgical approaches. ? The book is a masterful compendium of rejuvenative techniques in oculo-facial surgery from leading experts in the specialties of oculoplastic, facial plastic, dermatologic, and plastic surgery. The collaborative development of this 342-page text with 447 figures is a true contribution in blepharoplasty and periorbital rejuvenation that will be valued by the student and senior physician ? .? (James Ridgway, Archives of Facial Plastic Surgery, Vol. 14 (3), May/June, 2012)?This book is well organized and laid out, divided into 6 sections and 28 separate chapters. ? The diagrams are easy to follow and correlate well with the clinical photographs in each chapter. ? It is inclusive enough to be a good review for everyone, from the resident to the mature and experienced surgeons. This text will be a welcome addition to the library of every aesthetic surgeon and is a good contribution to the overall literature.? (James H. Carraway, Aesthetic Surgery Journal, Vol. 32 (8), 2012) Buchrückseite The eyes are a central feature of facial appearance, expression and provide us the ability to see, our most important sensory function. For this reason, mastering the evaluation and execution of aesthetic rejuvenation of the eyelids and adjacent areas is critical to all surgeons who operate on these very delicate and interconnected structures.
