and acronyms the free dictionary.

**Farts are intestinal gas sometimes
called flatulence you might fart
when you swallow a lot of air when
chewing and swallowing or because
your colon s working to break down
food the average**

If gas is being a consistent
problem taking a tablet like beano
with your meals may help since it
contains an enzyme that makes
fart s inducing foods easier to
digest says dr poppers.

**Measuring fart speed is
problematic because of the many
variables the position of the gas
itself which can vary by food and
by person means the calculation
would change for each fart however
it is theoretically possible to
find an average fart speed based
on the typical position and volume
of an average fart**

Here s a story that i laugh about
every time i think of it many

years ago i rented a car to drive
up to sudbury and visit my brother
on the last day of my visit my
brother makes me his special
spaghetti sauce that has
something special. Whether you
try to hide it or not you fart
everybody science humor leaving
a vapor trail behind it. routine
activity the average person
farts between 10 and 20 times
per day there s a lot about.
Does it fart one species does
every lacewing spends part of
its early life as a wormlike
larva the larva of one species
the beaded lacewing has a
really rude way of catching a
termite for dinner check it out
1 the larva raises its tail and
farts on the termite s head 2.
