"Synopsis Machu Picchu, the famed Inca site in Peru high in the Andes, is one of those talismanic places

that everyone dreams of visiting. The beauty of this extraordinary place is celebrated here in the striking photography of Barry Brukoff whose images evoke the mystery and spiritual atmosphere of this sacred lost city. Interwoven with the images is the epic poem by Pablo Neruda entitled 'The Heights of Machu Picchu' which has been described as one of his greatest works. In addition, novelist Isabel Allende contributes a prologue. The book is a bilingual edition and translator Stephen Kessler has created an English translation of Neruda's Spanish poem. Über den Autor und weitere Mitwirkende Barry Brukoff is a photographer and designer who has published three books: The Enigma of Stonehenge with John Fowles, Morocco with Paul Bowles, and Greece: Land of Light with Nicholas Gage. Pablo Neruda is one of the world's bestselling poets. Isabel Allende is the internationally known best-selling author of the novels Daughter of Fortune and The House of Spirits."
