When Kenna Scott finds herself broke and alone, she risks everything and takes a job that will set her up financially for life. She won't be rich, but at least she'll never have to worry about starving to death or not having a roof over her head.The wilful, independent junior lab technician from Chicago knows the job she signed up for is way over her pay grade: Time travel - she had no idea it was even possible before she agreed to this mission. Kenna travels back to the Old West to find an engineer who has vanished from a base located near the bustling town of Forest Hills. But when she meets the handsome sheriff, can she stay focused on her mission, or will he distract her and convince her to stay? Is the passion and protection that he offers worth staying for? Can she leave everything behind for love?Publisher's Note: This steamy Old West, time travel romance contains a theme of power exchange.
