(New York Times Book Review) Dalla quarta di copertina From the time she was a little girl, Gyo Fujikawa drew pictures.Gyo?s parents had come to California from Japan looking for a better life, but sometimes Gyo felt invisible. When high school came, Gyo?s teachers recognized her gift for creating beautiful art and got behind her. Art became her profession, and now her drawings were in magazines and store window displays.Eventually, Gyo was asked to illustrate picture books for children. She envisioned a diverse cast of characters, explaining that she wanted ?an international set of babies, little black babies, Asian babies, all kinds of babies? in the pages of her books.Had it ever been done before? Not yet. Her Babies, published in 1963, welcomed children of all colors into the pages of a picture book for the first time, paving the way for publishers, teachers, readers, and future writers to imagine a more inclusive world.From the beloved team of Kyo Maclear and Julie Morstad comes a story that poignantly portrays the life of Gyo Fujikawa, a groundbreaking hero in the fight for racial diversity in picture books. L'autore Kyo Maclear is the author of many books for children, including Bloom: A Story of Fashion Designer Elsa Schiaparelli, and some for adults. When she was a little girl, she wanted very badly to be a fashion designer. She spent countless hours drawing odd dresses, including a very special cloud dress. Her style muses include her mother, Patti Smith, the residents of Moominvalley, and anyone with a sense of casual and androgynous flair. Though she loved writing about Schiaparelli's signature color, shocking pink, Kyo's own favorite color is blue. She plants her garden with flowers in all shades of blue, and in spring when they bloom, it's a blue extravaganza. Kyo makes her home in Toronto, where she lives with her two sons and husband, a musician. You can find her at
