A practical and transformative 5-step strategy to ensure the emotional wellbeing of yourself and your childThe mental wellbeing of children and adults is shockingly poor. Marc Brackett, author of *Permission to Feel*, knows why and what we can do. Marc Brackett is a professor in Yale University's Child Study Center and in his 25 years as an emotion scientist, he has developed a remarkably effective plan to improve the lives of children and adults - a blueprint for understanding our emotions and using them wisely so that they help, rather than hinder, our success and well-being. The core of his approach is a legacy from his childhood, from an astute uncle who gave him permission to feel. He was the first adult who managed to see Marc, listen to him, and recognise the suffering, bullying, and abuse he'd endured. In the decades since, Marc has led large research teams and raised tens of millions of dollars to investigate the roots of emotional wellbeing. His prescription for healthy children (and their parents, teachers, and schools) is a system called RULER, a high-impact and effective approach to understanding and mastering emotions that has already transformed the thousands of schools that have adopted it. RULER has been proven to reduce stress and burnout, improve school climate, and enhance academic achievement. This book is his way to share the strategies and skills with readers around the world. It is tested, and it works.
