"Recensione So many worthy nonfiction books for this age group have good intentions but fail to step beyond simple preaching with boring line drawings. This one succeeds, thanks to its interesting choice of role models, gorgeous colourful illustrations, a sense of humour and sharp language that informs without patronising. (The Times 2016-08-20)It's impossible not to be inspired by this book, written by a descendent of Emmeline Pankhurst, and the great women featured in it. Their stories are told across bright spreads, which are packed with information that will make readers excited about the remarkable achievements described. (Absolutely Education)Every element of this book is pieced together perfectly; the amount of information, the fun way it is presented, the illustrations and of course the diverse mix of women. This book should be available in every school and every library and is sure to inspire young people to follow their hearts. (Acorn Books)An absolute must-have for every young person's bookshelf. (The Huffington Post)This book which is a must have for anybody - girl or boy, man or woman - it's enlightening for one and all . it's celebratory; laying out key messages in an attractive and engaging way to inspire a new set of admirers. (Books for Keeps) Descrizione del libro From the brilliant bestseller Kate Pankhurst comes Fantastically Great Women Who Worked Wonders. Prepare to discover the stories of some of the most amazing women who blazed the trail for women in the world of work. L'autore Kate Pankhurst illustrates and writes from her studio in Leeds with her spotty dog, Olive. She loves a good story, the funnier the better, and gets her best ideas by doodling in her sketchbook; because even quick wonky drawings can spark ideas for amazing plots. As a child, Kate spent most of her time drawing silly characters and thinking up funny things for them to do, she feels very lucky to now do this as her job. Kate is the bestselling author and illustrator of the phenomenal Fantastically Great Women Who Changed The World, nominated for the Kate Greenaway medal 2018, and Fantastically Great Women Who Made History."
